SEMINAR INTRODUCTION

The AWA South East Asian Release Liner & Converting Industry Seminar will be held on May 9, 2018 in Bangkok, Thailand. This seminar creates a platform for national and international organizations to inform, educate and network with their partners and customers on subject matter of release liners and its application areas.

SEMINAR INFORMATION

IN-DEPTH INDUSTRY UPDATES

This seminar will give you and your colleagues the chance to update your knowledge on the release liner and application markets, both globally as well as locally. Seminar supporters will share developments, innovations and trends in their respective area of expertise: paper and filmic release liner, silicones and release liner production. In addition they will provide insight on the products and services they deliver within the industry.

UNIQUE PEER-TO-PEER NETWORKING

In addition to the program the seminar allows you the opportunity to network with other executive and management level decision makers from organizations throughout the value chain, from supplier to user, representing departments such as:

- ◆ Sales
- ◆ Marketing
- ◆ Engineering
- ◆ Research & Development
- ◆ Sustainability
- ◆ Business Development

WHO PARTICIPATES

Within the release liner and associated industries: Tape, Labelstock, Hygiene, PSA Label and others. The participants are anywhere from material producers of paper, film, silicones, resin, chemicals and adhesive, release liner producers, commercial and in-house siliconizers, label converters /printers, machine manufactures, associations, users and others.

SEMINAR INFORMATION

REGISTRATION

Regular registration fee is \$150.

HOW TO REGISTER

If you have received an invitation, please use the [online registration form](#) to confirm your attendance.

Alternatively, can complete the form below and either return by e-mail to:

AWA Conferences & Events Head Office

E-mail: conferences@awa-bv.com

Confirmed seminar attendance includes:

Seminar attendance, lunch, coffee & light refreshments, cocktail reception, digital seminar proceedings.

I would like to register for the AWA SOUTH EAST ASIAN RELEASE LINER & CONVERTING INDUSTRY SEMINAR 2017

PLATINUM SPONSORS

DOW CORNING CORPORATION has more than 70 years of labeling expertise and market-driven innovation. Our global network of technical experts work alongside customers to identify ways in which Dow Corning's silicone technology can reduce cost, improve efficiency and deliver optimal performance. An extensive portfolio of silicone solutions is available for pressure-sensitive adhesion and release coating applications include labeling solutions, water-based release coatings, pressure-sensitive adhesives, protective films and tapes. For customers who need help to improve a formulation or to refine and improve production processes, we offer ongoing technical support. But we're also keen to put our innovation expertise to work to meet market trends whether it's the shift from paper to heat sensitive filmic release liners, or the desire to reduce platinum dependency or increasingly challenging converting conditions. For more information on how we can help you visit www.dowcorning/psi.

ELKEM is one of the world's leading suppliers of metallurgical silicon and microsilica. ELKEM SILICONES is the largest division of the Elkem group and has been active in the silicone industry for over 60 years. The Elkem Silicones SILCOLEASE range is unique in its ability to cover all technologies used in silicone release coatings: Solventless Thermal, Solventless Radiation (epoxy chemistry with cationic cure, Acrylate chemistry with free radical cure), Emulsion and Solvent.

UPM is the world's leading producer of high quality face and release base papers. Its packaging papers' range consists of C1S and Barrier papers. We are constantly developing our solutions and technology to fulfil our customers' requirements. The global presence guarantees local e.g. sales, logistics, technical and extensive environmental services worldwide. UPM is responding to the rapidly growing demand for environmentally sustainable products. Our products are sustainable over their lifecycle. The products are made of renewable, recyclable and biodegradable materials in two highperforming mills. We optimise our processes to minimize the environmental impact of our product throughout their entire lifecycle.

WACKER is a globally operating chemical company with 25 production sites, 21 competence centers and 50 sales offices; we are close to our customers. Its SILICONES division, with a range of over 3,000 silicone products, ranks among the world's largest manufacturers of silanes and silicones. Whether you want more efficient processes, innovative coating solutions or higher machine speeds, WACKER offers a perfect combination of siliconebased DEHESIVE® release systems, industry knowledge and technical expertise.
